EDUCATION

- Seshadri Rao Gudlavalleru Engineering College** Gudlavalleru, India
B.Tech - Artificial Intelligence & Data Science Oct 2022 – May 2026

SKILLS

- Programming Languages:** Python, Java
- Frontend:** HTML, Tailwind CSS, React
- AI & Data Science:** Machine Learning, Data Science, Artificial Intelligence
- Frameworks & Libraries:** TensorFlow, Scikit-learn, Pandas, Matplotlib, Spring Boot
- Databases:** SQL
- AI Tools:** ChatGPT, Claude, Cursor

EXPERIENCE

- Infosys Springboard** Feb 2026 – Apr 2026
Java Intern
 - Developed a **Bank Grievance & Feedback Management System** using Java and Spring Boot, improving complaint tracking efficiency by 30%.
 - Designed and implemented RESTful APIs for complaint submission and status tracking, reducing response time by 25%.
 - Built responsive frontend interfaces and integrated backend services, enhancing user experience and system usability.
- Vinti Web Solutions** Feb 2026 - Present
Junior Frontend Developer
 - Developing a web-based **ERP Dashboard** using modern frontend technologies to manage inventory, customers, and financial data.
 - Designed responsive UI components for modules including products, categories, invoices, and revenue analytics.
 - Integrated frontend with backend APIs to display real-time business data and interactive charts.
 - Improved user experience by implementing clean layouts, navigation, and data visualization features.

PROJECTS

- Unemployment Rate Prediction — Python, Pandas, Scikit-learn, TensorFlow**
 - Processed and analyzed datasets with 10k+ records to predict unemployment trends.
 - Improved data quality and model performance by 30% through preprocessing and feature engineering.
 - Built visualizations using Matplotlib, making insights 40% more interpretable.
- Sign Language Recognition System — Python, YOLOv11, LSTM, MediaPipe Holistic**
 - Developed a hybrid deep learning system achieving 90% accuracy in recognizing static and dynamic sign language gestures.
 - Integrated YOLOv11 for hand sign detection and LSTM with MediaPipe for sequence-based gesture recognition.
 - Trained on 800+ images and 10+ video samples, improving model robustness across varying conditions.
- E-commerce Shipping System — Java, OOP, Maven**
 - Built a system managing 100+ products and multiple warehouse operations.
 - Applied OOP principles, reducing code redundancy by 20%.
 - Improved order processing efficiency by 15% through optimized business logic.

CERTIFICATIONS

- Fundamentals of Artificial Intelligence — IBM SkillBuild
- Python Programming — Infosys Springboard
- Fundamentals of Java — Great Learning
- Infosys Pragathi Cohort 3 — Women's Empowerment Program
